

ATELIER
VERONIQUE de SOULTRAIT

PREFACE

As an accomplished artist, Véronique de Soultrait composes unique wall artworks with her favorite material : rope. Her original creations go beyond traditions, inviting the public to immerse themselves in a warm universe rich in textures, colors and emotions. She draws her inspiration from a rich mix of cultures, ranging from African and Asian ethnic influences to modern decorative arts. In just a few years, she has brought up rope marquetry to a new level of excellency.

Erick Salliet

Today she is at the head of a studio in the heart of Lyon, where she collaborates with decorators and designers for prestigious projects around the world: wall panels, screens, headboards, set for hospitality businesses, private residences or stores... Rope becomes an ornamental element that embellish any universe. Research, at the crossroad of several arts, always leads to refined and innovative results.

THE STUDIO

Véronique de Soultrait studio was created in 2013. As of today, it's widely considered as a reference in rope marquetry.

The team is made up of craftswomen from different backgrounds : marquetry, textile design, tapestry, weaving, leather goods, art publishing, embroidery... Custom-made productions are thus enriched under the guidance of innovation and high standards. We work with French collaborators, suppliers and rope makers. Flexible and reactive, we personalize each proposal, and we are proud to support a network of craftsmen who are close to us.

CATALOGUE

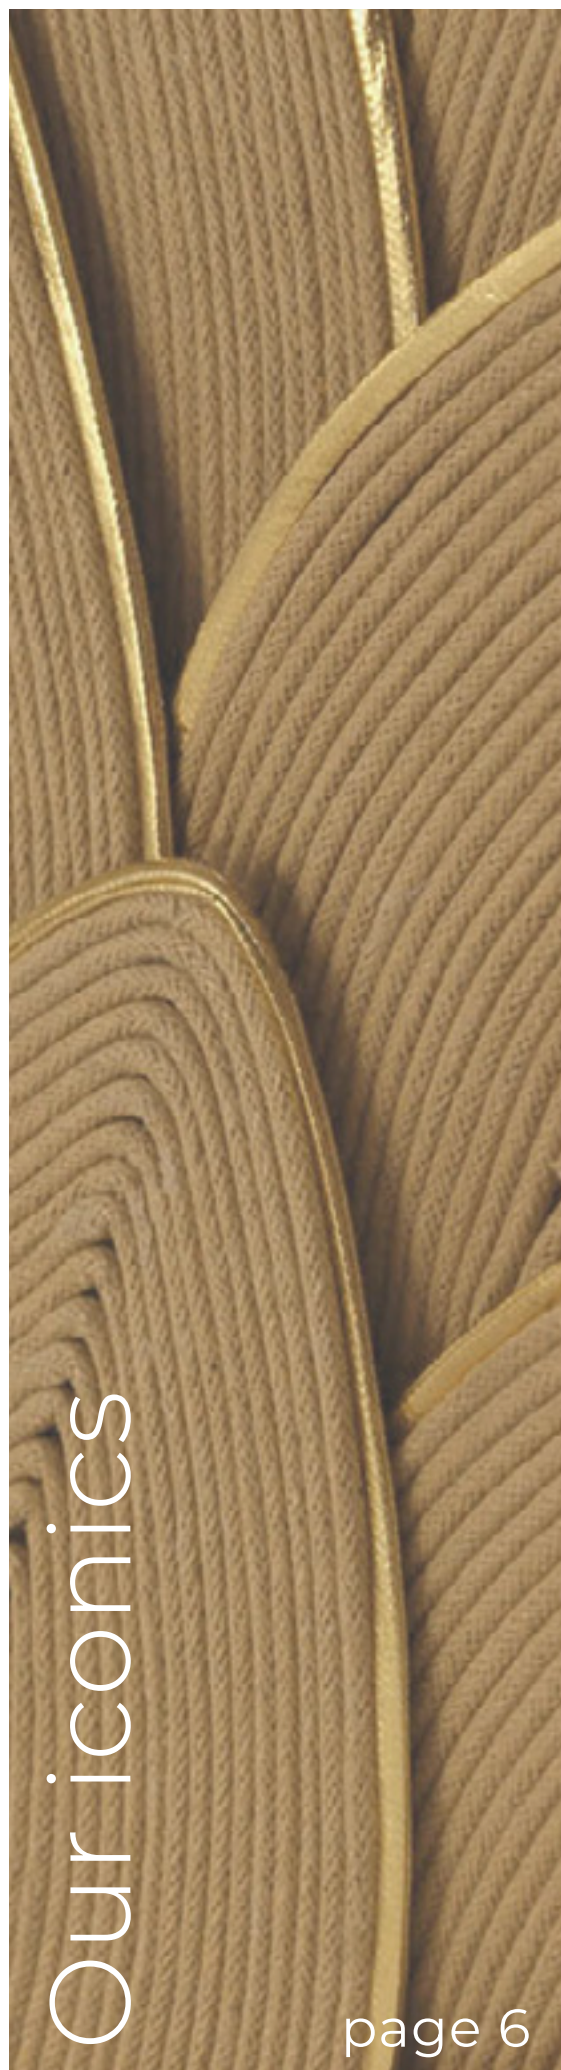

Linear with repetitive patterns or works resembling haute couture, we bring passion to each project and the utmost attention to the creation of exceptional pieces.

This catalog offers inspiring resources for your designs, and will bring you a guidance in our future collaborations.
